

Cloud-based 3G pitch online booking management system

Main features

Centralised database of all bookings.

- All bookings are stored on a centralised database
- Real-time view of pitch bookings and availability from any PC that has internet access
- Booking system can be accessed via your website, or from a unique URL
- System is mobile friendly – bookings can be made from any device (PCs, IPADS, Mobile Phones)

Bookings can be made by

- Administrator – using a secure login and password
- Trusted account holders (account holders can be set up as “pay in advance” OR “pay on account”) – account holders are allocated their own login and password and can book directly online.
- From people visiting your website who would like to use the facilities, including online payment in advance. Booking will only be confirmed once payment has been processed.

Flexible rates that allow you to actively market specified dates and times

- Set up different rates for:
 - Times of day
 - Days of week
- Set up different rates for:
 - Account Holder groups (Schools, local teams, etc)
 - People booking from website
 - Phone in bookings

Block bookings

- Can block book times in advance for specified groups/teams

Management Reporting

- List all bookings within specified dates
- Cancellations audit
- Revenue reporting
- Unpaid reporting (required to raise invoices)

Costs

- A low cost online booking system with ease of use at its core
- For as little as £38 per month (payable annually in advance)
- Additional annual fee of £80 if online payments is required.
- A one-off setup fee which includes training. Setup fees start at £147 (dependant on location of customer).
